SUBJECT INDEX TO VOLUME XX

(abs) = Abstract. (E) = Editorial. (B.R.) = Book Review

Abdomen, calcifications in, after tuberculous peritonitis (abs), 71
Cancer of, and pelvic cavities (abs), 589
Position of free fluid, free gas and mobile inflated intestines in (abs), 75
Tumors of, differential diagnosis by roentgenological method (abs), 271
Tumors of, roentgen diagnosis of (abs), 77
Abnormalities after castration with roentgen rays, 52
Abscess, acute perinephritic, roentgen observations in (abs), 579
Differential diagnosis between, and gangrene of the lung (abs), 574
Double, typhoid osteomyelitis and mode of formation of (abs), 582
Of bone, case of chronic (Brodie's abscess) (abs), 583
Of liver, with roentgen demonstration of rupture into bile ducts, 527
Perinephritic, roentgen evidence of (abs), 574
Achylia gastrica, cholecystography in presence of (abs), 576
Acne, roentgen therapy of (abs), 500; (abs), 501
Acranion diagnosed before birth (abs), 69
Actionotherapy, a Text-Book of (B.R.), 383
Adamantinoma (abs), 583
Adnexa, roentgen therapy of inflammatory diseases of (abs), 587
Agenesia, partial, of the bones of the skull (abs), 387
Air, irradiated, inhalation of, in treatment (abs), 97
Passages, non-opaque foreign bodies in (abs), 268
Albers-Schönberg's disease (abs), 180
American College of Radiology, 168
American Radium Society, address of president of (E), 247
Report of Standardization Committee of, 258
American Roentgen Ray Society, newly elected officers, 378
Preliminary program, 160
Anemia, atypical hemolytic, with splenomegaly in children (abs), 584
Roentgen studies of the bones in, 433
Aneurysm of the heart, detectability of, in the roentgenogram (abs), 487
Of renal artery, from roentgen viewpoint (abs), 80
Thoracic (abs), 283
Angina, agranulocytic, 550
Angioma, case of phlebolites in (abs), 75
Angström in English (abs), 401
Ankylosis of joints (abs), 390
Annular shadows, subpleural emphysema as cause of, 6; (abs), 69
Antrum, roentgenograms of, 56
Aorta, anomalies of (abs), 391
Ascending, roentgen method for studying (abs), 386
Importance of roentgen examination of, in clinical diagnosis (abs), 182
Appendicitis, chronic, a case of, and calcified fibroid uterus (abs), 385
Arteries, roentgenography of, after injection of opaque substances (abs), 282
Artery, renal, aneurysm of (abs), 80
Arthritic attack, fracture-suspicious, post-traumatic (abs), 493
Arthritis, chronic, deforming, surgical lesions of right lower quadrant demonstrated in patients with, by opaque meal examination (abs), 194
Arthrochondromatosis, roentgen picture in (abs), 69
Ascarids, cholecystitis from, with negative cholecystographic picture (abs), 179
Asthma, roentgen treatment of spleen in, and in related allergic diseases (abs), 399
Source of, in children (abs), 179
Atelectasis, acute massive, of the lung, complicating a fresh tuberculous primary complex (abs), 285
Pulmonary, following thyroidectomy (abs), 269
Atlas, roentgen diagnosis of different kinds of union between occiput and (abs), 183
Atlas typischer Röntgenbilder vom normalen Menschen, by R. Grashey (B.R.), 174
Autolysis, process of postmortem, and proteolysis in macerated organs of guinea pigs treated with roentgen rays (abs), 100
Avulsion of lesser femoral trochanter (abs), 280
Azygos lobe of the lung, 1

Bacillus prodigiosus, toxins of, and erysipelas in treatment of Hodgkin's disease and lymphosarcoma (abs), 586
Bactericidal fluorescence, excitation of, by means of *x*-rays (abs), 597
Barium for three weeks in the intestine? (abs), 386
Meal, correlation of cholecystography with (abs), 490
Sulphate, pure, as contrast material in roentgenology (abs), 299
Basal metabolism in chronic lymphatic leukemia (abs), 290
Bezoars (abs), 580
Bile ducts, roentgen visualization of (abs), 278
Bilharziasis, urinary, late results of, as shown by roentgen rays (abs), 578
Biliary drainage, transduodenal, correlation of findings in, with clinical and operative data, 358
Biliary stasis as a factor in production of gallstones (abs), 296
Biological effect, dependence of, upon dose of roentgen rays (abs), 90
Of radiations, fundamental process of (abs), 91
Of *x*-rays of different wave lengths (abs), 596
Biological investigations, use of *x*-ray in (abs), 597
Bipartite carpal scaphoid (abs), 275
Bladder, carcinoma of, principles governing local treatment of (abs), 589
Diverticula of (abs), 193
Diverticulum of (abs), 79
End results of radium removal of carcinoma of (abs), 586
Roentgen examination of (abs), 79
Blood calcium in Perthes' disease (abs), 400
Blood, effect of carbon arc radiation on (abs), 595
Roentgen studies of bones in diseases of, 433
Blood vessels, changes of functional state of, after roentgen irradiation (abs), 92; (abs), 300
Boeck's sarcoid, roentgen appearance of lung lesions in (abs), 584
Bone, benign giant cell tumor of, value of roentgen therapy in, 303
Case of chronic abscess of—Brodie's abscess (abs), 583
Case of unusual new growth of, following gunshot fracture (abs), 491
Disease, roentgen analysis of (abs), 385
Diseases, post-typhoid, roentgen diagnosis of (abs), 74
Hodgkin's disease of (abs), 185
Malignant tumors of, roentgen diagnosis of (abs), 268
Metastatic carcinoma of, roentgen treatment of (abs), 87
Metastatic tumors of, roentgen and clinical diagnosis (abs), 191

Malignant tumors of, roentgen diagnosis of (abs), 268
Metastatic carcinoma of, roentgen treatment of (abs), 87
Metastatic tumors of, roentgen and clinical diagnosis (abs), 191

Bone, primary malignant tumors of, value of roentgen therapy in, 303
Tumors of, roentgen diagnosis of (abs), 278
Tumors of, roentgen treatment of (abs), 499
Bones, changes in, in hemolytic icterus, 440
Involvement of, in course of malignant granulomatosis (abs), 385
Long, of children, transverse lines in x-ray plates of (abs), 273
Of foot, variations of, 548
Roentgen diagnosis of tumorous conditions of (abs), 72
Roentgen studies of, in diseases of blood and hematopoietic system, 433
Borderline rays (see Grenz rays)
Brain, cholesteatoma of (abs), 278
Glioma of, radiation treatment of (abs), 588
Glioma of, roentgen treatment of (abs), 86
Topography of, shown after opaque injection of cerebral vessels (abs), 282
Tumor of, ventriculography with air in eight cases of (abs), 493
Tumor of, with widespread metastases (abs), 282
Tumors of, significance of petrous ridge deformation in roentgen diagnosis and localization of, 201
Tumors of, value of ventricular studies other than ventriculography in localization of (abs), 183
Breast, cancer of, pathology and treatment of (abs), 502
Cancer of, review of 80 cases (abs), 502
Cancer of, treatment of (abs), 89
Carcinoma of, surgery and x-ray in treatment of (abs), 502
Brodie's abscess (abs), 583
Brominized oil, advantages of, in bronchography in tuberculous patients (abs), 577
Bronchi, surgical importance of x-ray examination of (abs), 388

In tuberculous patients, advantages of brominized oil in (abs), 577
Technique of (abs), 83
Bucky diaphragm, combination of urology table with (abs), 302
New method of using (abs), 595

Calcaneus, case of post-traumatic necrosis in, with changes suggesting "local malacia" (abs), 81
Calculi, ureteral, new procedure in diagnosis of (abs), 387
Calibration of mercury vapor lamp in reproducible units for clinical purposes, 338
Cancer (see also Carcinoma, Malignant Disease, Neoplasms, Malignant, and Tumors, Malignant)
Average treatment of (abs), 590
Experimental basis of radium therapy in (abs), 398
Group treatment of, 479
Gynecological, roentgen and radium treatment of (abs), 291
Intra-oral, radium in (abs), 394
Intra-oral, surgery in cases of (abs), 396
Intra-oral, treatment of, with radium emanation (abs), 90
Investigations of, after x-ray treatment *in vitro* (abs), 296
Lead treatment of (abs), 292
Of abdomen and pelvic cavities (abs), 589
Of breast, parasternal invasion of thorax in, and its suppression by use of radium tubes as an operative precaution (abs), 84
Of breast, pathology and treatment of (abs), 502
Of breast, review of 80 cases of (abs), 502
Of breast, treatment of (abs), 89
Of cervix uteri, treatment of, by irradiation (abs), 394
Of colon and rectum, early diagnosis of (abs), 277
Cancer of colon, importance of early diagnosis, 113
Of mouth and throat, surgical procedures and radium in treatment of (abs), 501
Of penis, radium puncture and external apparatus in (abs), 589
Of rectum, methods of radium application in, 445
Of rectum, treatment of (abs), 494
Of skin, therapy of (abs), 90
Of stomach, inoperable, roentgen treated (abs), 88
Of uterus, radiological or operative treatment of (abs), 288
Of vagina, results of treatment of, at Radiumhemmet (abs), 293
Oral, radium treatment of (abs), 397
Progress and prospect in treatment of (abs), 287
Study and treatment of, in Milan (abs), 597
Summary of methods and results in treatment of (abs), 89
Carbon arc radiation, effects of, on blood and circulatory system (abs), 595
Carcinoma (see also Cancer)
Colloid, of cecum (abs), 269
Epidermoid, transitional cell (abs), 87
Gastro-esophageal (abs), 187
Intra-oral, cervical lymph nodes in (abs), 394
Metastatic of bone, roentgen treatment of (abs), 87
Of bladder, end-results of radium removal of (abs), 586
Of bladder, principles governing local treatment of (abs), 589
Of breast, surgery and x-ray in treatment of (abs), 502
Of cervix uteri, new radium applicator for (abs), 591
Of cervix uteri, radiotherapy in (abs), 88
Of cervix uteri, radium statistics of (abs), 592
Of cervix uteri, relation of degree of histological malignancy to prognosis and treatment (abs), 292
Of cervix uteri, treatment of, by combination of roentgen rays, radium and electrothermic coagulation (abs), 399
Of cervix uteri, treatment of pain in, 30
Of esophagus (abs), 192
Of mouth and tongue, radium treatment in (abs), 393
Of rectum, radiation treatment of (abs), 198
Of rectum, treatment of, by radium (abs), 498
Of splenic flexure of the colon (abs), 389
Of uterus, results of radiotherapy in (abs), 592
Osteoplastic metastatic, differentiation from osteitis deformans (abs), 285
Pseudo, of the stomach (abs), 180
Cardiac output, roentgen measurement of, in man (abs), 403
Cardiograph, roentgen-ray (abs), 594
Cardiospasm in infancy and childhood (abs), 281
Carpal bones, traumatic osteoporosis of (abs), 178
Castration, roentgen, by irradiation of the hypophysis (abs), 200
Cathode rays, high-voltage, effect of, on skin of rat (abs), 403
Cavity in pulmonary tuberculosis, 518
Cecum, colloid carcinoma of (abs), 269
Inverted, roentgen study of, 531
Retrograde intubation of, 226
Cell metabolism, effect of roentgen rays upon (abs), 99
Cells, survival curves of, under radiation (abs), 595
Cerebellum, roentgen representation of (abs), 182
Cervix uteri, cancer of, treatment by irradiation (abs), 394
Carcinoma of, new radium applicator for (abs), 591
Carcinoma of, radium statistics of (abs), 592
Carcinoma of, relation of degree of histological malignancy to prognosis and treatment (abs), 292
Radiation treatment of malignancy of, by radium emanation (abs), 289

Cervix, uteri, radiotherapy in carcinomata of (abs), 88
Treatment of, by combination of roentgen rays, radium and electrothermic coagulation (abs), 399
Treatment of pain in carcinoma of, 30
Chalicosis, roentgen diagnosis of (abs), 176
Roentgen picture in (abs), 76
Chemical and industrial materials, *x*-ray diagnosis of (abs), 504
Chest, examinations of, in lateral upright position, technique for, 380
Factors against accurate correlation of physical and roentgen examinations of (abs), 190
Value of lateral exposure in roentgen examination of (abs), 272
Value of routine fluoroscopic examinations among industrial employees (abs), 276
Chicago Roentgen Society, 57
Childbirth, fatality after, caused by traumatic diaphragmatic hernia (abs), 390
Chloride, content of, in erythrocytes after roentgen irradiation (abs), 298
Chloroma, roentgen studies of the bones in, 437
Cholecystitis, from ascarids with negative cholecystographic picture (abs), 179
Cholecystogastrostomy, gastric defect produced by (abs), 282
Cholecystographic response, the normal (abs), 392
Cholecystography (see also Gall-bladder); (abs), 77; (abs), 487
By oral method, results and value of, with tetraiodophenolphthalein (abs), 182
By oral method, results in (abs), 385
By oral method without use of capsules (abs), 282
Clinical evaluation of, by oral administration of tetraiodophenolphthalein (abs), 279
Common errors in (abs), 585
Concentration of mediums used in, and bilirubin by the gall-bladder (abs), 279
Conclusions based upon routine intravenous administration of sodium tetraiodophenolphthalein (abs), 490
Correlation of findings after, with clinical and operative data, 358
Correlation of, with barium meal (abs), 490
Diagnosis of hydrops of gall-bladder by (abs), 583
In late months of pregnancy (abs), 487
In presence of achylia gastrica (abs), 576
Limitations of (abs), 388
Negative finding in cholecystitis from ascarids (abs), 179
Routine (abs), 494
Simultaneous, and determination of hepatic function (abs), 575
Uncertainties of (abs), 574
Value of, in gall tract disease, 118
Cholelithiasis, roentgen diagnosis of (abs), 492
Cholesteatoma of the brain (abs), 278
Cholesterol, blood, clinical study of effect of radiation on, in malignant disease (abs), 404
Change after roentgen irradiation *in vitro* (abs), 294
Influence of radiation on, *in vitro* (abs), 599
Chondroma of joint, two cases of (abs), 69
Chondromatosis of the joints (abs), 493
Club foot, congenital, deficient development of os naviculare in (abs), 83
